

NEW THREAD REPAIR KIT LAUNCH

DESIGN

Each Thread Repair Kit is made to the highest quality standard.

THE UNIQUE DESIGN INCLUDES:

- Threaded mandrel for each size to ensure ease of control during installation.
- Solid screwdriver handle for better grip to help install the insert during the first attempt.
- Easy to operate locknuts for depth adjustments.

FEATURES

THE THREAD REPAIR KITS FEATURE:

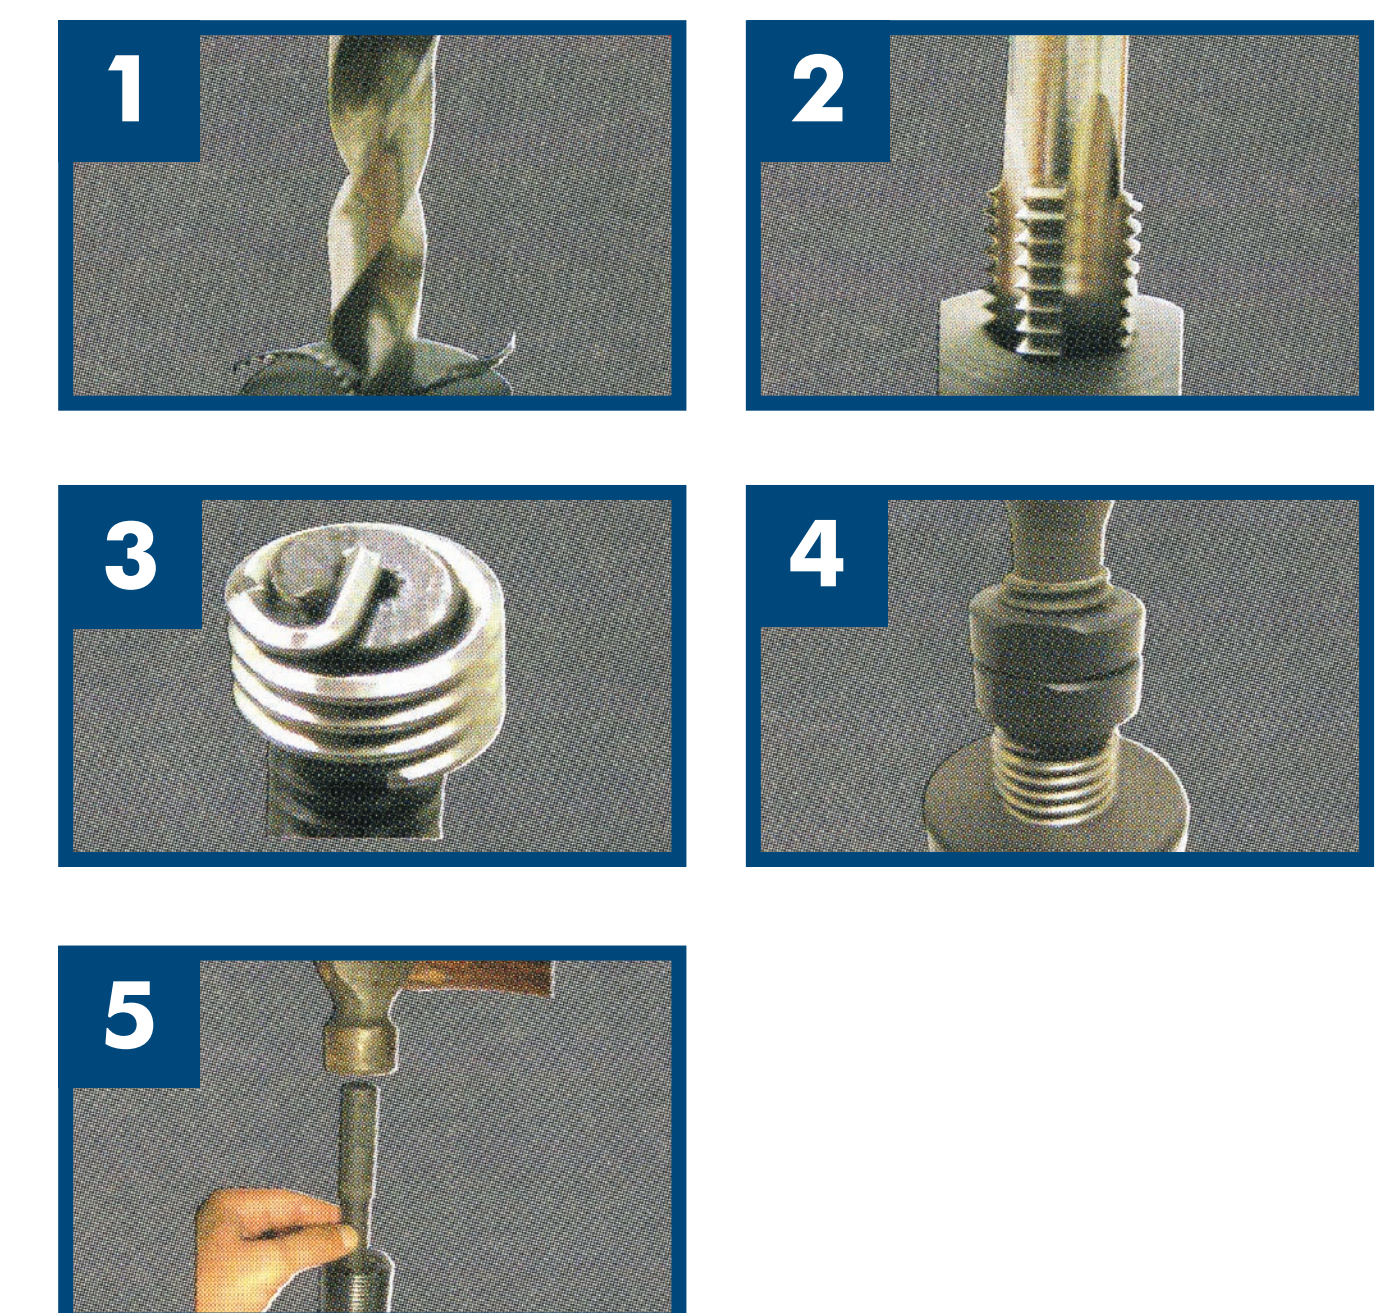

- A sleek new slim housing with easy latches to keep parts securely.
- Locknuts which have been already adjusted to fit in 1.5d inserts.
- That can fit into a workman's pocket easily.
- That does not need much area for storage.
